Title: **HEALTHCARE INFORMATION APPARATUS AND METHOD**

**FIRST SUPPLEMENTAL
INFORMATION DISCLOSURE STATEMENT**

Mail Stop: Amendment
Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Commissioner:

This document is a First Supplemental Information Disclosure Statement to the above-cited patent application.

Attached is at least one form PTO/SB/08A/B listing documents believed relevant to the subject application. The submission of the following information is not intended, nor should it be construed, to constitute an admission that any patent, article, or other information referred to herein is "prior art" unless specifically designated as such. In fact, it is submitted by Applicant that these references do not affect the patentability of this current case. Furthermore, and in accordance with 37 C.F.R. § 1.97(b), the filing of this information shall not be construed to mean that a search has been made or that no other material information may exist. Neither should its submission be construed to indicate that a thorough search should not be conducted by the Examiner.

It is believed that this disclosure complies with the requirements of 37 C.F.R. § 1.96, § 1.97, and § 1.98 and the Manual of Patent Examining Procedures § 707.05(b). If for some reason the Examiner considers otherwise, it is respectfully requested that the undersigned be telephoned at (858) 450-0099 x303 so that any deficiencies can be remedied.

This Information Disclosure Statement is being submitted before the mailing date of a first office action. (37 C.F.R. § 1.97(b)(3)). This Information Disclosure Statement is also being submitted before the mailing date of a final action under §1.113, a notice of allowance under § 1.311, or an action that otherwise closes prosecution in the application, and it is accompanied by the following statement:

That no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing the certification after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in § 1.56(c) more than three months prior to the filing of the information disclosure statement. (37 C.F.R. § 1.97(c)(1)).

Accordingly, no fee is due under 37 C.F.R. § 1.97(b)(2).

A copy of each document is enclosed. Some of the documents may have markings thereon. No significance is to be attached to the markings. These documents are not necessarily analogous art. Additionally, the order of the following documents is to be accorded no particular import, as the order thereof is completely fortuitous.

It is respectfully requested that these documents be: (1) fully considered by the Patent and Trademark Office during the prosecution of this application; and (2) represented on any patent which may issue on the application. Applicant respectfully requests that copies of the forms PTO/SB/08A/B, as considered and initialed by the Examiner, be returned with the next communication.

U.S. Patent No.: 5,924,074, issued to Jae A. Evans discusses a medical records system that captures patient data using a touch screen graphical user interface, houses that data in a patient database, allows for analysis of the patient information, and can access reference databases that provide healthcare information. The invention is internet enabled.

If any issues remain, the Examiner is respectfully requested to telephone the undersigned at (858) 450-0099 x303.

Date: June 14, 2005

Respectfully submitted,

Jeff Landes, Esq.
